

Application for GuentherBionics Student Award

Guentherbionics is an innovative developer and manufacturer in the Orthopedic Industry. Headquartered in Germany, the company aims to enhance rehabilitation and the quality of life of persons with prosthetics and orthotics needs by research, design, and education.

This award has been specifically devised for students in the University of Pittsburgh's MSPO program. Applicants will be considered based on their academic standing and their aspirations, as assessed by a short essay, to have a meaningful professional career. An amount of \$1,000 will be awarded to the successful applicant.

To apply, please provide the requested information below and submit your completed application form to Prof. Sara Peterson, either on paper or electronically (Speterso@pitt.edu) by May 30th.

Award notification will be made on or around June 10th.

Name

MSPO class of Year of graduation

Please provide a short description of your professional career aims and elaborate how your personal experience, education, and ambitions will support those goals.
