Notice to Students: Closure of the Didactic Program in Dietetics

The Didactic Program in Dietetics (DPD) will be voluntarily closing effective May 31, 2020. The last class of students that will be admitted to the DPD will be students who apply in the Spring Term of 2018 to begin the program as juniors in Fall 2018. No students will be admitted after this time. The DPD will maintain its ACEND accreditation status through May 31, 2020. Students who do not complete all DPD course requirements by May 31, 2020 will not be considered graduates of an ACEND-accredited DPD. For more information about the closure of the DPD, please contact Lori Cherok at lcherok@pitt.edu.
Preface

The faculty and staff of the Nutrition and Dietetics Program join in welcoming you. We are pleased that you have selected the Didactic Program in Dietetics (DPD) at the University of Pittsburgh School of Health and Rehabilitation Sciences (SHRS) to pursue your professional education and training.

This handbook was developed to familiarize you with the program policies and procedures which you are required to follow while you are a student enrolled in the DPD. This handbook is not intended to be all-inclusive, but rather is to be used as a supplement to the University of Pittsburgh Undergraduate Catalog and the School of Health and Rehabilitation Sciences (SHRS) Undergraduate Student Handbook. All of the SHRS policies and procedures apply to DPD students; however, this handbook delineates specific interpretations as they apply to students enrolled in the DPD. It outlines accepted policy, based on the program’s compliance to the Accreditation Council for Education in Nutrition and Dietetics (ACEND) Accreditation Standards for Nutrition and Dietetics Didactic Programs and provides the framework within which the Program Director, University faculty and staff, and students can work together effectively.

It is important that you read and become knowledgeable about the information presented in both this and the SHRS Undergraduate Student Handbook. It is also important that you use both handbooks as references while you are enrolled in the DPD.
Nutrition & Dietetics
Didactic Program in Dietetics Student Handbook

Table of Contents

I. Program Administration and Faculty
   A. Program Administration
   B. Faculty Advisors
   C. Faculty and Staff Directory
   D. Office Hours
   E. Department Announcements and Student Mail
   F. Telephone and Fax Usage; Photocopying
   G. Unofficial Requests for Student Telephone Numbers or Addresses

II. Student Professional Organizations
   A. The Academy of Nutrition and Dietetics
   B. Student Dietetic Association
   C. Pittsburgh Academy of Nutrition and Dietetics

III. Curriculum Overview
   A. Mission of the DPD Program
   B. Goals and Objectives of the DPD Program
   C. Program Description
   D. DPD Curriculum
   E. Field Experience
   F. Program Outcome
   G. Application for Post-Baccalaureate Supervised Practice
   H. Accreditation Status of the DPD

   B. Recommended Sequence for DPD Prerequisite Courses 25
   C. Didactic Program in Dietetics Curriculum Plan 26
I. Program Administration and Faculty

A. Program Administration

The Didactic Program in Dietetics (DPD) is an undergraduate program offered by the Nutrition and Dietetics Program in the Department of Sports Medicine and Nutrition (SMN) in the School of Health and Rehabilitation Sciences (SHRS). The DPD is accredited by the Accreditation Council on Education in Nutrition and Dietetics (ACEND).

Each Nutrition & Dietetics faculty member participates in planning, teaching, and evaluating the DPD program. Students participate in the evaluation of the courses offered and the DPD curriculum. The Didactic Program Director is ultimately responsible for determining that each student has successfully met the knowledge and skill requirements for Nutrition and Dietetics Didactic Programs which are delineated in the ACEND Core Knowledge for the RDN (Appendix A).

B. Faculty Advisors

At the beginning of the Fall Term of the Junior Year, each student enrolled in the DPD will be assigned an advisor who is a member of the Nutrition and Dietetics faculty. The role of the faculty advisor is to provide guidance to the student as they make decisions regarding course registration, changes in their Plan of Studies, academic goals and progress, and career planning and development. Faculty advisors will initiate appointments with their advisees at least once each term. Students are also encouraged to schedule appointments with their advisors on an "as needed" basis. For additional information on advisor assignment, roles, and responsibilities please see the SHRS Student Undergraduate Handbook.

C. Faculty and Staff Directory

The Nutrition and Dietetics faculty and staff offices are located in 4033 Forbes Tower. The name and contact information for individual faculty and staff are presented below and on the following page. A mailbox for each faculty member is located in Room 4033 Forbes Tower.

Kevin Conley, PhD, ATC
Chair and Associate Professor, Department of Sports Medicine and Nutrition and SHRS Associate Dean for Undergraduate Studies
4032A Forbes Tower Phone: (412) 383-6737 kconley@pitt.edu

Lori Cherok, MS, RDN, LDN, CNSC
Director, Didactic Program in Dietetics
4042 Forbes Tower Phone: (412) 383-6566 lcherok@pitt.edu

Trisha Cousins, MS, RDN, LDN, CSO
Clinical Coordinator and Instructor
4041 Forbes Tower Phone: (412) 383-6532 tcousins@pitt.edu
D. Office Hours

Department Office Hours
The Sports Medicine and Nutrition Department office (Room 4033) is open from 8:00 am to 4:30 pm on weekdays.

Faculty Office Hours
Students may meet with individual faculty members for a variety of reasons which may require either scheduled or unscheduled appointments. Regardless of the purpose of the meeting, each student has the right to privacy while meeting with the faculty member.

1. Unscheduled Appointments During “Office Hours”
Faculty members may maintain “office hours” related to the course they teach. These “office hours” are either stated on the course outline(s) or are posted outside the faculty member’s office door. Students are not required to schedule appointments to meet with the faculty member during these “office hours”.

2. Scheduled Appointments
Appointments with individual faculty members at times other than those identified as “office hours” are arranged by appointment only. These appointments should be scheduled directly with the faculty member.

E. Department Announcements and Student Mail

Bulletin Boards
Official department announcements are posted on the bulletin board located on the wall outside of Room 4033 Forbes Tower. This bulletin board is reserved for official announcements and students must receive approval from a Nutrition and Dietetics faculty member before posting items on the bulletin board.
Student Mailboxes
Each student enrolled in SHRS has an assigned mailbox. The mailboxes for Nutrition and Dietetics students are located on the fourth floor of Forbes Tower near the restrooms. Nutrition and Dietetics Faculty and SHRS staff will use these mailboxes to provide important information to the students; therefore, it is the student’s responsibility to check her/his mailbox daily.

F. Telephone and FAX Usage; Photocopying
Students are advised that the department telephone, fax machine, and photocopying machine cannot be used for individual student or Student Dietetic Association business. There is a photocopying machine available for student use in the Learning Resource Center (room 4011 Forbes Tower). Department faculty and staff should not be asked to make photocopies for students.

G. Unofficial Requests for Student Telephone Numbers or Addresses
Consistent with University policy, unofficial requests for the telephone numbers or mailing addresses of students will not be given out to individuals who request this information. The Department Administrator will take the name and phone number of the individual requesting a student’s phone number or address and relay that information to the student concerned.

II. Student Professional Organizations

Students enrolled in the DPD are eligible for membership in the three dietetic associations that are briefly described below.

A. The Academy of Nutrition and Dietetics
The Academy of Nutrition and Dietetics (AND) is the national professional organization of Registered Dietitian Nutritionists. Membership in the Academy is required for all DPD students. There is a $58.00* annual fee for student membership. Benefits of being an Academy member include a subscription to the Journal of the Academy of Nutrition and Dietetics, access to the Evidence Analysis Library, a discounted price for the online Nutrition Care Manual and other resources, discounted registration to the FNCE meeting, and eligibility for Academy and state awards and scholarships. In addition, numerous courses in the curriculum have required resources that can only be accessed by AND members. Applications for student membership are available from the Academy website at: http://www.eatrightpro.org/resources/membership/membership-types-and-criteria/student-member. All students must provide proof of AND student membership (a photocopy of membership card) to the SMN Department Administrator by September 30th in both years of the DPD.

B. Student Dietetic Association
The Student Dietetic Association (SDA) is organized and managed by student members with a member of the Nutrition and Dietetics faculty serving as an advisor to the organization. Officers of the SDA are elected from the membership in accordance with the
SDA By-Laws. There is a $12.00* membership fee. **Membership in SDA is strongly recommended.**

Further details about the SDA and procedures for joining the organization will be presented at the first fall term meeting of the SDA. All incoming Nutrition and Dietetics students are invited to attend the meeting. The date of the meeting will be posted on the department bulletin board outside of Room 4033 Forbes Tower. For additional information, email [pittsda@gmail.com](mailto:pittsda@gmail.com).

C. **Pittsburgh Academy of Nutrition and Dietetics**

The Pittsburgh Academy of Nutrition and Dietetics (PitAND) is a local professional organization for dietitians. Membership in PitAND provides opportunities to network with local dietetics professionals and attend professional seminars at a discounted rate. The student membership fee is $10.00*. Applications are available from the PitAND website at [http://www.eatrightpittsburgh.org](http://www.eatrightpittsburgh.org).

*Note: All fees are subject to change.*

III. Curriculum Overview

A. **Mission of the Didactic Program in Dietetics (DPD)**

The mission of the Didactic Program in Dietetics (DPD) within the Department of Sports Medicine and Nutrition (SMN) is to provide students a strong academic foundation of knowledge and skills in nutrition and dietetics to meet the required coursework and experiences to apply to a Dietetic Internship or a Coordinated Master’s Program as required to become a Registered Dietitian Nutritionist (RDN), pursue an advanced degree in science/healthcare-related discipline, or to function in society as a professional and upon which practitioner competence can be built. The program provides the academic preparation to support continued professional growth to meet personal, professional, community, and worldwide evolving healthcare needs.

The mission of the DPD program reflects both the mission of the University and SHRS. The mission of SHRS is “to advance health, rehabilitation and reintegration service delivery through teaching, research and professional service.” The University's mission is to: 1) Offer superior educational programs, 2) Advance the frontiers of knowledge and creative endeavor, and 3) Share expertise with private, community, and public partners. It is part of the mission of the University and SHRS to prepare students for today’s practice environment and to instill within the student the quest for lifelong learning, adaptation, and evolution to continue to expand knowledge, upgrade skills and service opportunities in their professional fields. The program provides the academic preparation to support continued professional growth to meet personal, professional, community, and worldwide evolving healthcare needs.

Essential and prerequisite to the process of attaining the knowledge and skills inherent in professional dietetics education is the attainment of both broad-based general education and knowledge of theory that underlies dietetics practice. The curriculum of the Didactic
Program in Dietetics incorporates the Accreditation Council for Education in Nutrition and Dietetics (ACEND) Core Knowledge for the RDN and includes the following: communications, physical and biological sciences, research, management, behavioral and social sciences, food, food systems, and nutrition. The course work meets core knowledge requirements in each of the three major areas of dietetics practice—clinical dietetics, food service management, and community dietetics.

To successfully achieve the core knowledge requirements, graduates must demonstrate the ability to communicate and collaborate, solve problems, and apply critical thinking skills. Although the primary focus of the DPD curriculum is on didactic instruction, practice-related activities are included as part of the planned course learning experiences to enhance the development of analytical and problem solving skills for application of knowledge in practice.

B. **Goals and Objectives of the Didactic Program in Dietetics (2017-2020)**

*Program Goal 1*: To recruit highly qualified students who demonstrate the ability to successfully enter dietetic internships and/or graduate programs enhanced by nutrition or food expertise.

*Program Mission Reference*: To provide students a strong academic foundation of knowledge and skills to meet the required coursework and experiences to apply to a Dietetic Internship or a Coordinated Master’s Program, pursue an advanced degree in science/healthcare-related discipline, or to function in society as a professional and upon which practitioner competence can be built.

*Program Objectives Related to Program Goal 1:*

1. 80% of students admitted to the program will complete the program/degree requirements within three years, which is 150% of the two-year program length.
2. 70% of students will apply to supervised practice programs within 12 months of graduation.
3. 70% of those students who apply to supervised practice programs will be admitted within 12 months of graduation.

*Program Goal 2*: To educate and prepare graduates who can utilize analytical and problem-solving skills in the application of attained requisite knowledge, and who can demonstrate these skills by the successful completion of required supervised practice and by successful performance in taking the National Registration Examination for Dietitians.

*Program Mission Reference*: To provide students a strong academic foundation of knowledge and skills to meet the required coursework and experiences to apply to a Dietetic Internship or a Coordinated Master’s Program.

*Program Objectives Related to Program Goal 2:*

1. Over the course of five years, 100% of graduates from supervised practice programs will rate their educational preparation for supervised practice at or above average.
2. After successful completion of an accredited supervised practice program, 80% of program graduates over a five-year period will pass the National Registration Examination for Dietitians within one year following the first attempt.
3. At least 80% of supervised practice program directors who respond to a survey, will rate the problem-solving skills of graduates as being at or above that of other didactic program graduates participating in the supervised practice program.

**Outcome data measuring achievement of program objectives are available upon request to students, prospective students, and the public.**

**C. Program Description**

The Didactic Program in Dietetics (DPD) at the University of Pittsburgh School of Health and Rehabilitation Sciences is a pre-professional upper division program. Students are admitted to the program in their junior year after having completed a minimum of 60 credits which includes both the general education requirements of the University and the courses prerequisite to the professional curriculum. The prerequisite courses [Appendix B](#) are specified by the Nutrition and Dietetics Program in compliance with the ACEND Accreditation Standards.

The Didactic Program in Dietetics provides the student with the opportunity to attain ACEND’s Core Knowledge for the RDN and prepares graduates for a supervised practice program in nutrition and dietetics. The curriculum includes a planned sequence of courses which focus on the areas of knowledge necessary for the development of core knowledge and proficiency in each of the three functional areas of dietetics practice: clinical dietetics, community dietetics, and food service management.

**D. DPD Curriculum**

The DPD curriculum requires the successful completion of 122 credits. Courses included in the curriculum incorporate the areas of professional knowledge specified in ACEND’s Core Knowledge for the RDN [Appendix A](#). The major portion of the DPD curriculum consists of courses that are required and that are offered in a planned sequence. Included are courses that are offered only once during the academic year. Any deviation from completing the courses in the planned sequence may cause a delay in progressing to higher-level required courses and ultimately delay graduation. Students may be granted Advanced Standing for courses taken prior to enrolling in SHRS at another accredited college/university if the course is determined to be an appropriate substitute for a DPD curriculum course by the DPD Program Director. Students must have earned a C or better in the course to receive Advanced Standing. The DPD curriculum plan and sequence of courses is presented in [Appendix C](#).

**E. Field Experience**

Students in the DPD are encouraged to gain experience in the field of dietetics through volunteerism, work experience, independent study, or field experience for course credit. REHSCI 1295: Field Experience is a SHRS course that allows the student to participate in a structured experience working with individuals with health care needs and with agencies and facilities that work with these individuals for course credit. Students are required to identify and contact a facility to arrange the field experience and must develop a proposal for the field experience including objectives and means for meeting the objectives. For detailed information on completing a field experience, please contact the course
coordinator, Mary Goldberg, PhD at mgoldberg@pitt.edu. Students interested in completing a field experience should also discuss this with their Nutrition and Dietetics Advisor prior to registration.

F. **Program Outcome**
Upon successful completion of the program requirements, the student will be awarded a Bachelor of Science degree from the University of Pittsburgh and will receive a Verification Statement of having completed an ACEND-accredited Didactic Program in Dietetics.

G. **Application for Post-Baccalaureate Supervised Practice**
During the senior year, those students who wish to become a registered dietitian nutritionist (RDN) must apply and be accepted to either a post-baccalaureate Dietetic Internship or a Coordinated Master in Dietetics Program which will provide the supervised practice experience required to complete professional preparation and to establish eligibility to take the Registration Examination for Dietitians.

The Nutrition and Dietetics program will inform the students about the Dietetic Internship application process through multiple opportunities during the program. The students will have an early opportunity to consider DPD graduate options in NUTR 1600: Introduction to the Profession of Dietetics, taken prior to program admission or during the first term after enrollment with a scheduled lecture from the Didactic Program Director to initiate and support the preparation process. Senior DPD Program students will have an information session on Dietetic Internships provided by the Didactic Program in Dietetics Director at the beginning of the Fall Term. In addition, during the advising sessions held each term, advisors will discuss post-baccalaureate supervised practice options and the application process. Information on the Dietetic Internship application process is available in the “Career” section of the Academy of Nutrition and Dietetics website for student members.

Please note: The Commission on Dietetic Registration (CDR) will require a Master’s degree for dietitian registration eligibility beginning in 1/1/2024.

H. **Accreditation Status of the DPD**
The Didactic Program in Dietetics at the University of Pittsburgh School of Health and Rehabilitation Sciences is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) which is recognized by the Commission on Recognition of Postsecondary Accreditation and by the U.S. Department of Education as the official accrediting agency for dietetic education programs.

IV. **The Student’s Financial Responsibilities**

A. **Basic Tuition and Fees**
After admission to the DPD, the student is responsible for paying tuition and fees as well as other educational expenses including those of the costs of books and supplies. The University tuition rates for the School of Health and Rehabilitation Sciences change on an
annual basis. For information regarding tuition, fees, scholarships, and financial aid, the student is referred to the following resources:
1. The “Financial Issues” section of the University of Pittsburgh Undergraduate Catalog
2. SHRS Undergraduate Student Handbook
3. The SHRS website: https://www.shrs.pitt.edu/current-students
4. The University of Pittsburgh Office of Admissions and Financial Aid

B. Additional Expenses While Enrolled in the DPD
While enrolled in the DPD, the student will incur additional expenses which include mandatory expenses and optional expenses. The mandatory expenses are those that are associated with curriculum requirements. An itemized listing of the additional expenses associated with the DPD is outlined on the next two pages. This is followed by a description of individual additional expense items.
C. **Itemized Additional Expenses While Enrolled in the DPD**

*Note: All dollar amounts are subject to change.*
D. **Explanation of Additional Expenses While Enrolled in the DPD**

1. **Lab Fees**
   DPD students taking courses with a lab component will be charged a fee associated with the laboratory expenses which will be used to defray the cost of expendable supplies and equipment. The fee will be charged to the student directly each term and will appear on the invoice generated by Student Accounts in addition to tuition and other fees.

2. **Lab Coat**
   Students are required to wear a white lab coat in Food Science Lab 1. Lab coats are available for purchase at numerous uniform stores in the area.

3. **ServSafe Training & Certification**
   As part of the course requirements for NUTR 1613: Food Science 1 Lab and the DPD, all students must complete an online training program ($125.00*) and proctored certification examination ($36.00*) in food safety. The details concerning this training and certification will be provided in Section VI: Additional Policies for DPD Students.

4. **Professional Liability Insurance**
   Professional Liability Insurance protects you against covered claims arising from real or alleged errors or omissions, including negligence, in the course of your professional duties. Students participating in volunteer enrichment activities may choose to consider purchasing Professional Liability Insurance. Student members of the Academy of Nutrition and Dietetics can purchase annual coverage for $24* per year, depending on coverage selected. The enrollment form is available online at: http://ebview.com/pdfgenerator/ViewPdf/Acdemy/vcmoore_1037-3143.pdf.

5. **Additional Expenses Associated with a Field Experience for Credit**
   For those students who elect to complete a field experience for credit, there will be additional expenses associated with this course. The expenses are associated with the cost of completing clinical preparation requirements such as a physical exam, criminal background checks, travel to the site, and parking. For detailed information on completing a field experience for credit (REHSCI 1295) please contact the course coordinator, Mary Goldberg, PhD at mgoldberg@pitt.edu.

6. **Criminal and Child Abuse Clearances**
   All seniors are required to obtain criminal and child abuse clearances by the beginning of the fall term. This requirement is necessary for students to be able to participate in activities at schools and child care facilities that are included in the following courses: NUTR 1605: Nutrition Education and Counseling (fall term) and NUTR 1604: Food Service Management with Lab (spring term). The following three clearances must be completed: 1. FBI Criminal History Report (~$28.00*), 2. Pennsylvania Criminal Record Check ($8.00*), and 3.) Pennsylvania Child Abuse History Clearance (free for
volunteers). The details concerning this training and certification will be provided in Section VI: Additional Policies for DPD Students.

7. **Transportation Costs to Field Trips**
   Students are responsible for and transportation and parking costs associated with field trips that are required as part of a course (e.g. NUTR 1604: Food Service Management with Lab). If students choose to use their private automobiles, they must have adequate automobile insurance coverage. The student is responsible for making appropriate arrangements for this insurance coverage.

8. **Application Process for a Dietetic Internship**
   For those DPD students who are interested in applying for a Dietetic Internship to meet the requirements for Supervised Practice after completion of the DPD, there will be costs involved in this process. There is a fee to participate in the “Computer Matching” process which places the student in a Dietetic Internship. In addition, there will be a separate application fee for every Dietetic Internship program that the student applies to.

9. **GRE® Test Administration**
   Students applying to the Coordinated Master in Nutrition and Dietetics Program at the University of Pittsburgh must take the GRE Examination. Certain Dietetic Internships and other graduate programs may also require GRE scores. Information about the GRE Test can be found online at: [http://www.ets.org/gre/](http://www.ets.org/gre/).

*Note: All dollar amounts are subject to change.*

V. **Academic Policies and Procedures for DPD Students**

In matters pertaining to the academic policies and procedures which apply to the DPD students, the Nutrition and Dietetics Program adheres to University policies and the School of Health and Rehabilitation Sciences' academic policies and procedures which are presented in the [SHRS Undergraduate Student Handbook](http://www.ets.org/gre/). It is the responsibility of the student to review the [SHRS Undergraduate Student Handbook](http://www.ets.org/gre/) and to be familiar with all academic policies. The policies below provide specific information for DPD students.

A. **Academic Calendar and Schedule**

   **General Information**
   The academic year at the University of Pittsburgh is divided into three consecutive terms: Fall Term, Spring Term, and Summer Term, each of which is 15 weeks long. In addition, there are "Summer Sessions" of varying duration. All official academic events for the academic year are published in the [University Academic Calendar](http://www.ets.org/gre/).

   **The DPD Academic Scheduling Policy**
   The DPD academic schedules are developed in accord with the [University Academic Calendar](http://www.ets.org/gre/). During the Junior Year and Senior Year, students enrolled in the DPD are required
to take courses during the Fall and Spring Terms. Classes will not be scheduled on official University holidays or semester breaks.

Final Exam Schedule
Final Exams are scheduled for the week following the scheduled last day of class. The dates of the FINAL EXAMINATION PERIOD are identified on the University Academic Calendar. The student will be advised of the date of the Final Exam by the individual course instructor. The Final Exam for most Nutrition and Dietetics courses is held during Finals Week on the same day and time that the class is usually held.

B. Plan of Studies

Purpose
The purpose of the Plan of Studies (POS) is to provide documentation of the courses a student will be required to take in order to fulfill the requirements of the program and graduation requirements as well as documentation of the term in which each course will be taken. The POS is used to cross-check with the student’s transcript prior to graduation to verify that the student has satisfactorily completed all course requirements. The SHRS Office of Student Services will not verify graduation if there is a discrepancy between the POS on file and courses indicated on the official transcript.

The majority of students who enter the DPD will take and complete the required courses in the standard sequence presented on the DPD curriculum outline (see Appendix C). It may be necessary, however, for some students to deviate from this standard sequence of courses. In some cases, this may be predictable, such as students who enter the DPD with advanced standing for a course; in other cases, it may be the result of unanticipated events such as failing or withdrawing from a required course. Please note: due to the closing of the DPD in May 2020, students who do not complete all DPD course requirements by May 31, 2020 will not be considered graduates of an ACEND-accredited DPD.

Policy
Each student enrolled in SHRS is required to complete an individualized Plan of Studies which must be submitted to the SHRS Office of Student Services (4024 Forbes Tower). The POS becomes a part of the student's permanent academic record. No student will be allowed to graduate from SHRS unless a complete and accurate POS, appropriately approved and signed, is on file in the student's permanent academic record.

Procedure
Each student enrolled in the DPD will complete her/his POS with the assistance of her/his faculty advisor. Students must complete and submit a POS during their first term of study in the DPD. The POS must be completed using the SHRS POS Form and must be signed by the student and the student's faculty advisor. The student must submit the original copy of his/her POS to the SHRS Office of Student Services (4019 Forbes Tower). The student should also submit a copy to their faculty advisor as well as retain a copy for her/his personal files.

Students who experience an interruption in the normal progression through the curriculum are required to revise their original POS to reflect the resultant changes. The POS revision must
be initiated by the student and completed with the assistance of the student's faculty advisor. The revised POS must be signed by the student and the student's faculty advisor, and appropriate copies must be submitted to the Nutrition & Dietetics faculty advisor and the Office of Student Services (4019 Forbes Tower).

C. **Academic Probation**

The Nutrition and Dietetics Program adheres to the School of Health and Rehabilitation Sciences' policy and procedure for academic probation which is presented in the [SHRS Undergraduate Student Handbook](#).

D. **Class Attendance**

Students should adhere to the class attendance policy for each individual course. Many courses in the DPD require mandatory attendance.

While most learning activities for a course will take place during the normally scheduled class period, some activities must take place outside of the normal class time. Attendance at these learning activities is expected and students must arrange for their own transportation. Students will be notified in advance for any of these activities.

E. **Confidentiality of Student Records**

In addition to the student records maintained in the SHRS Office of Student Services, the Nutrition and Dietetics Program maintains confidential files/records on each student enrolled in the DPD. Included are files maintained in the Nutrition and Dietetics office used for advising and other routine academic purposes.

It is the policy of the Nutrition and Dietetics Program to maintain the confidentiality of student records/files in accordance with federal legislation. Only ethical and lawful means will be used to gather information from or about the student and to provide appropriate and adequate safeguards to maintain confidentiality. Protection of the confidentiality of student files/records refers to the collection and use of, access to, and dissemination and retention of information maintained in the student record/file. DPD student records/files maintained by the department are secured in locked file drawers. Access to these files is limited to the Nutrition and Dietetics faculty and staff.

F. **Student Access to Personal Files Maintained by the Nutrition & Dietetics Program**

It is the policy of the Nutrition and Dietetics Program to provide each student enrolled in the DPD with access to their file/record maintained in the SMN Department for their review. The following procedures are to be followed:

1. The DPD student may submit a verbal or written request to their Nutrition and Dietetics faculty advisor for an appointment to review their record.
2. The Nutrition and Dietetics faculty advisor will promptly schedule a mutually convenient time to meet with the student for the purpose of the review.
3. The DPD student's review of the record will take place in the presence of his/her Nutrition and Dietetics faculty advisor.
4. The DPD student may take notes of any of the record contents.
5. The DPD student **may not remove** any material from their personal record; however, they may make a request to correct information or to insert a statement of
disagreement in their file by writing to the DPD Program Director. If the student's correction is not accepted, the DPD Program Director will notify the student and include an explanation for the denial of the correction. If the correction is accepted, it will be added to the record with appropriate documentation by the DPD Program Director. The student can request, in writing, that copies of the change be sent, for academic or professional reasons, to individuals designated by the student.

G. **University of Pittsburgh Nondiscrimination Policy**
The Nutrition and Dietetics Program adheres to the University of Pittsburgh Nondiscrimination Policy which can be viewed at: [https://catalog.upp.pitt.edu/content.php?catoid=72&navoid=6223#student-rights-and-responsibilities](https://catalog.upp.pitt.edu/content.php?catoid=72&navoid=6223#student-rights-and-responsibilities).

H. **Academic Integrity and Grievance Procedure**
The Nutrition and Dietetics Program adheres to the policies and procedures for academic integrity and the grievance procedure as stated in the SHRS Guidelines on Academic Integrity available on the SHRS website under “Academic Policies”.

Students may submit unresolved complaints directly to ACEND only after all other options for grievances outlined in the “SHRS Guidelines on Academic Integrity” have been exhausted. The contact information for ACEND is 120 South Riverside Plaza, Suite 2190, Chicago, IL, 60606-6995, telephone: 1-800-877-1600 x5400, email: ACEND@eatright.org.

I. **Dismissal from the DPD**
The Nutrition and Dietetics Program reserves the right to dismiss a student from the DPD when deemed necessary by the Nutrition & Dietetics faculty with concurrence of the Dean. The termination of the student from the DPD will be conducted in a manner that is considerate of the student, does not interfere with the student's rights, and fully protects the interests of the Nutrition and Dietetics Program, SHRS, and the University. The procedures for the dismissal of a student from the DPD are presented below.

1. **Before action to dismiss a student from the DPD, the reasons for the termination must be documented and presented to the DPD Program Director.** Depending on the reason(s) for the intended dismissal, the documentation must include evidence that every action to avoid dismissal of the student has been taken.

2. **The DPD Program Director and the Department Chair will thoroughly investigate the reason(s) for the intended dismissal.** If, on the basis of the documentation, the decision is made that the student’s dismissal is warranted, the Program Director will meet with the student to inform them of the decision followed by written notification to the student of the dismissal.

3. **Reasons for dismissal of a student from the DPD include but are not limited to:**
   a. Repeated unsatisfactory academic performance.
   b. Excessive/blatant absenteeism.
   c. Excessive and/or blatant violations of University, SHRS, or DPD policies and procedures.
J. **Graduation**
Please refer to the [SHRS Undergraduate Student Handbook](#) for specific requirements that must be met to graduate from SHRS.

**Requirements for Graduation from the DPD**
To qualify for graduation from the DPD, students must have completed all courses and other degree requirements as specified in the curriculum plan for the DPD. Graduation from the Didactic Program in Dietetics requires completion of 122 credits as a result of:
1. Credit hour requirements for admission to the School of Health and Rehabilitation Sciences and the professional program of study (60 credits).
2. Credit hours necessary to meet the program requirements and ACEND Core Knowledge for the RDN (total 62 credits).

VI. **Additional Policies for DPD Students**

A. **Transportation to the Field Trip Sites Policy**
Students are responsible for providing their own transportation to all of the field trip sites required for courses (e.g. NUTR 1604: Food Service Management with Lab). Students are also responsible for all expenses involved in the transportation and parking. If students choose to use their private automobiles, they must have adequate automobile insurance coverage. The student is responsible for making appropriate arrangements for this insurance coverage. Some of the field trip sites may be accessible by Pittsburgh’s Port Authority of Allegheny County buses. University of Pittsburgh students can ride for free on the city of Pittsburgh’s Port Authority of Allegheny County buses using their University ID card. Bus routes and schedules are available on the Port Authority website at [http://www.portauthority.org/paac/](http://www.portauthority.org/paac/).

B. **Standards of Appearance/Dress Code Policy**
Students in the DPD must adhere to the following standards of appearance/dress code when going to field trip sites, field experience or independent study sites, professional meetings, participating in SDA events, or serving as a representative of the University of Pittsburgh Nutrition and Dietetics Program. It is essential that the appearance of the student reflect a professional image when representing the DPD program.

**Standards of Appearance**
The student must comply with the standards of appearance outlined below. If a field trip or field experience/independent study site maintains additional/stricter standards of appearance, the student must comply with that site’s standards.

**Attire**
Professional, business attire must be worn to field trip sites, professional meetings, field experience/independent study sites, and SDA events. This would include: dresses or skirts (of appropriate length—no shorter than 2 inches above the knee) or dress slacks or trousers (no jeans or shorts) with blouse/shirt/sweater or shirt and tie. Shirts should cover the entire midriff and should not show cleavage. No sleeveless
shirts may be worn.

**Footwear**
Clean, professional shoes should be worn. No open-toed or open-heeled shoes, clogs, or sandals should be worn. No athletic shoes should be worn. No cloth shoes should be worn in food production/kitchen areas. Shoes should be kept in good condition. Stockings or socks must be worn at all times.

**Jewelry**
Only wedding bands and earrings (size of earrings may be specified in some institutions) may be worn in food production/kitchen areas. Conservative jewelry may be worn in other areas. Facial piercings are prohibited.

**Fingernails**
Fingernails must be kept short and clean. Nail polish should not be worn in food production or food service areas. No artificial nails can be worn in the food production or food service areas.

**Hair**
Hair should be conservative and neatly groomed. Hair, including facial hair, must be covered with a suitable hair restraint when in the food production or service areas.

**Tattoos**
Any exposed tattoos must be small in size, minimally noticeable, and must not be offensive or potentially offensive to patients, clients, families, or fellow employees. Any large or controversial tattoos must be covered at all times when the student is at a field experience site, field trip/independent study site, or a professional meeting.

C. **ServSafe Training and Certification**

**Policy**
All DPD students must complete the National Restaurant Association’s ServSafe Manager Training and successfully pass the certification examination. The purpose of this training is to provide all students with knowledge and expertise in food safety and safe food handling practices. The training is required for students to be properly prepared to participate in course learning activities for NUTR 1613: Food Science 1 Lab and NUTR 1604: Food Service Management with Lab. The student is responsible for the cost of the online training and proctored certification examination.

**Procedure**
All DPD students must complete the National Restaurant Association’s online ServSafe Manager Training program prior to the beginning of the Spring Term, Junior Year. The online training will take approximately 16 hours. All students will then take a proctored certification examination during the first class session of NUTR 1611: Food Science 1 at the beginning of the Spring Term, Junior Year. The DPD Program Director will provide detailed information about this requirement to all juniors at the DPD Student Orientation prior to the start of the Fall Term.
D. **Criminal and Child Abuse Clearances**

**Policy**
All DPD students must obtain criminal and child abuse clearances by the beginning of the Fall Term, Senior Year. This requirement is necessary for students to be able to participate in activities at schools and child care facilities that are included in the following courses: NUTR 1605: Nutrition Education and Counseling (fall term) and NUTR 1604: Food Service Management with Lab (spring term). The purpose of this requirement is to protect children from harm or abuse.

**Procedure**
The following three clearances must be completed by all students in the summer prior to the Fall Term, Senior Year:

1. FBI Criminal History Report
2. Pennsylvania Criminal Record Check
3. Pennsylvania Child Abuse History Clearance

The DPD Program Director will provide detailed information about the process for obtaining these clearances via an email sent to all seniors in June prior to the Fall Term, Senior Year.
VII. Appendices

Appendix A

ACEND Core Knowledge for the RDN

1. Domain 1. Scientific and Evidence Base of Practice: Integration of scientific information and translation of research into practice.
   Upon completion of the program, graduates are able to:
   KRDN 1.1 Demonstrate how to locate, interpret, evaluate and use professional literature to make ethical, evidence-based practice decisions.
   KRDN 1.2 Use current information technologies to locate and apply evidence-based guidelines and protocols.
   KRDN 1.3 Apply critical thinking skills.

2. Domain 2. Professional Practice Expectations: Beliefs, values, attitudes and behaviors for the professional dietitian nutritionist level of practice.
   Upon completion of the program, graduates are able to:
   KRDN 2.1 Demonstrate effective and professional oral and written communication and documentation.
   KRDN 2.2 Describe the governance of nutrition and dietetics practice, such as the Scope of Nutrition and Dietetics Practice and the Code of Ethics for the Profession of Nutrition and Dietetics; and describe interprofessional relationships in various practice settings.
   KRDN 2.3 Assess the impact of a public policy position on nutrition and dietetics practice.
   KRDN 2.4 Discuss the impact of health care policy and different health care delivery systems on food and nutrition services.
   KRDN 2.5 Identify and describe the work of interprofessional teams and the roles of others with whom the registered dietitian nutritionist collaborates in the delivery of food and nutrition services.
   KRDN 2.6 Demonstrate an understanding of cultural competence/sensitivity.
   KRDN 2.7 Demonstrate identification with the nutrition and dietetics profession through activities such as participation in professional organizations and defending a position on issues impacting the nutrition and dietetics profession.
   KRDN 2.8 Demonstrate an understanding of the importance and expectations of a professional in mentoring and precepting others.

   Upon completion of the program, graduates are able to:
   KRDN 3.1 Use the Nutrition Care Process to make decisions, identify nutrition-related problems and determine and evaluate nutrition interventions.
   KRDN 3.2 Develop an educational session or program/educational strategy for a target population.
   KRDN 3.3 Demonstrate counseling and education methods to facilitate behavior change and enhance wellness for diverse individuals and groups.
   KRDN 3.4 Explain the processes involved in delivering quality food and nutrition services.
KRDN 3.5 Describe basic concepts of nutritional genomics.

4. Domain 4. Practice Management and Use of Resources: Strategic application of principles of management and systems in the provision of services to individuals and organizations. Upon completion of the program, graduates are able to:

   KRDN 4.1 Apply management theories to the development of programs or services.
   KRDN 4.2 Evaluate a budget and interpret financial data.
   KRDN 4.3 Describe the regulation system related to billing and coding, what services are reimbursable by third party payers, and how reimbursement may be obtained.
   KRDN 4.4 Apply the principles of human resource management to different situations.
   KRDN 4.5 Describe safety principles related to food, personnel and consumers.
   KRDN 4.6 Analyze data for assessment and evaluate data to be used in decision-making for continuous quality improvement.

The program’s curriculum must provide learning activities to attain the breadth and depth of the required curriculum components and core knowledge. Syllabi for courses taught within the academic unit must include these learning activities with the associated KRDNs.

a. Learning activities must prepare students for professional practice with patients/clients with various conditions, including, but not limited to overweight and obesity; endocrine disorders; cancer; malnutrition and cardiovascular, gastrointestinal and renal diseases.

b. Learning activities must prepare students to implement the Nutrition Care Process with various populations and diverse cultures, including infants, children, adolescents, adults, pregnant/lactating females and older adults.

c. Learning activities must use a variety of educational approaches necessary for delivery of curriculum content, to meet learner needs and to facilitate learning objectives.
Appendix B

UNIVERSITY OF PITTSBURGH
School of Health and Rehabilitation Sciences
Nutrition and Dietetics

Recommended Sequence for Didactic Program in Dietetics Prerequisite Courses
(60 credits total required)

FRESHMAN YEAR

**Fall Term**
- CHEM 0110 – General Chemistry 1 with Lab 4 cr
- BIOSC 0150 - Foundations of Biology 1 3 cr
- MATH 0031 - Algebra or Higher Math 2-4 cr
- ENGCMP 0200 - Seminar in Composition 3 cr
- NUTR 1600 Introduction to Dietetics 1 1 cr
- Note: If less than 15 credits, add an elective to total 15 credits 15 cr

**Spring Term**
- CHEM 0120 - General Chemistry 2 with Lab 4 cr
- BIOSC 0160- Foundations of Biology 2 3 cr
- BIOSC 0050 - Biology Lab 1 cr
- STAT 0200 or 1000 - Statistics 4 cr
- PSY 0010 - Introduction to Psychology 3 cr
- 15 cr

SOPHOMORE YEAR

**Fall Term**
- NUTR/HRS 1006 Introduction to Nutrition 3 cr
- SOC 0010 - Introduction to Sociology 3 cr
- COMMRC 0520 - Public Speaking 3 cr
- Intensive Writing (W) Course (Suggested: ENGCOMP 0450) 3 cr
- Electives 3 cr
- 15 cr

**Spring Term**
- CHEM 0350 - Principles of Organic Chemistry 2 3 cr
- HRS 1025 or BIOSC 1850 – Introduction to Microbiology 3 cr
- ECON 0800 - Introduction to Economics 3 cr
- Electives 6 cr
- 15 cr

1 Transfer students may take this course following admission to SHRS and the DPD.
2 Those students who cannot take CHEM 0350 are required to take Organic Chemistry 1 (CHEM 0310) and 2 (CHEM 0320).
