Education

Institution:	Degree Received, Year:	Dates Attended:
University of Pittsburgh Pittsburgh, PA	Bachelor of Arts in French, 2012 Certificate in American Sign Language, 2012	August 2008-April 2012
University of Pittsburgh Pittsburgh, PA	Master of Occupational Therapy, 2015	June 2013-June 2015
University of Pittsburgh Pittsburgh, PA	Doctor of Clinical Science, Anticipated graduation Spring 2026	August 2022-Present

Academic Positions

Institution:	Position:	Dates:
Department of Occupational Therapy, School of Health and Rehabilitation Sciences, University of Pittsburgh Pittsburgh, PA	Adjunct Instructor, Doctor of Occupational Therapy Program	June 2019- Present

Non-Academic Positions

Institution:	Position:	Dates:
Pediatric Specialty Care, Pittsburgh, PA	Staff Occupational Therapist	September 2015-March 2016
Western Pennsylvania School for Blind Children Pittsburgh, PA	Staff Occupational Therapist	February 2016-June 2022

Pittsburgh Pediatric Therapy LLC
Pittsburgh, PA

Owner, Occupational Therapist

October 2019-Present

Graduate Teaching

Program: **Master of Occupational Therapy**

Institution: University of Pittsburgh, School of Health and Rehabilitation Sciences, Department of Occupational Therapy

Course Title: ***Human Anatomy (HRS 2022)***

Role: **Lab Assistant**

Year: Summer 2014

Course Description: 4 Credits - Musculoskeletal and peripheral nervous systems are studied in-depth and attention is also given to the cardiopulmonary system. Learning is facilitated through directed laboratory prosected cadavers, skeletal materials and models.

Program: **Doctor of Occupational Therapy**

Institution: University of Pittsburgh, School of Health and Rehabilitation Sciences, Department of Occupational Therapy

Course Title: ***Body Functions and Structures: Anatomy (OT 2201)***

Role: **Instructor (Lecture and Cadaver Lab components)**

Years: Summer 2019, Fall 2020, Fall 2021, Fall 2022, Fall 2023

Course Description: 3 Credits - Emphasizes the understanding and application of knowledge of human anatomy in diagnostics of clinical conditions commonly encountered by an occupational therapist. The practical component includes the use of prosected cadavers, skeletal models, and palpation of surface anatomical features in live models.

Program: **Doctor of Occupational Therapy**

Institution: University of Pittsburgh, School of Health and Rehabilitation Sciences, Department of Occupational Therapy

Course Title: ***Neurobehavioral Science (OT 2205)***

Role: **Instructor (Lecture and Cadaver Lab components)**

Years: Spring 2022 (co-taught), Spring 2023, Spring 2024 (planned)

Course Description: 3 Credits - Emphasizes the understanding and application of knowledge of human anatomy in diagnostics of clinical conditions commonly encountered by an occupational therapist. The practical component includes the use of prosected cadavers, skeletal models, and palpation of surface anatomical features in live models.

Program: **Doctor of Occupational Therapy**

Institution: University of Pittsburgh, School of Health and Rehabilitation Sciences, Department of Occupational Therapy

Course Title: ***Clinical Conditions 2 (OT 2237) - Pediatric Visual Impairments***

Role: **Guest Lecturer**

Years: Summer 2023 (Asynchronous pre-recorded lecture)

Course Description: 1 Credit - Defines and describes neuromuscular, orthopedic, psychiatric, and clinical medicine diagnoses that are leading causes of disability in children, adolescents, adults, and older adults. Etiology, signs and symptoms, clinical course, medical management, morbidity, and prognosis are reviewed, and the influence of pathology on occupational performance is examined. Builds on content in Clinical Conditions 1.

Undergraduate Teaching

Program: **Bachelor of Science in Rehabilitation Science**

Institution: University of Pittsburgh, School of Health and Rehabilitation Sciences,

Course Title: ***Human Anatomy and Human Anatomy Lab (REHSCI 1200 and 1201)***

Role: **Lab Assistant**

Year: Fall 2014

Course Description: 4 Credits - This course uses lecture and laboratory experiences to teach the anatomical structures of the human body. Content focuses on gross human anatomy with particular reference to the musculoskeletal, nervous, cardiovascular and respiratory systems. Emphasis has been laid on application of knowledge of human anatomy in diagnostics of commonly encountered diseases/injuries. Students are encouraged to use their knowledge of anatomical structures learned in class to create such clinical scenarios as a part of learning.

Presentations and Seminars

Dean, H, Sommer, J, Williams, C. Transition Planning for Students with Multiple Disabilities.

Presentation at Pennsylvania Community of Practice Transition Conference, July 14, 2019; State College, PA.

Dean, H. Refining Fine Motor. Educational seminar for teaching staff at Carnegie Mellon University Children's School, August 22, 2022; Pittsburgh, PA.

Dean, H. Transition Planning: Occupational Therapy's Leadership Role. Presentation at Pennsylvania Occupational Therapy Association Annual Conference, September 30, 2022; Lancaster, PA.

Research

Title, PI:	Role:	Dates:
Bear Lair Project at the Carnegie Museum of Natural History Principal Investigator: Nancy Baker, ScD, MPH, OTR/L	Student Researcher	August 2013-December 2014
Evaluating the First Pathways Game for the Diverse Learner Principal Investigator: Judy Cameron, PhD	LEND Trainee Researcher	September 2021-April 2022

Honors and Awards

Pi Delta Phi, National French Honor Society, Nu Delta Chapter

Inducted Fall 2011

Pi Theta Epsilon, Occupational Therapy Student Honor Society, Beta Tau Chapter Inducted Fall 2013

Dr. and Mrs. Minno Graduate Student Resource Award, University of Pittsburgh Alumni Society 2014 Recipient

Leadership Experience and Community Engagement

Leadership Education in Neurodevelopmental Disabilities & Related Disorders August 2012-June 2013
Liaison for the Mighty Penguins Community Outreach Partnership

Western Pennsylvania School for Blind Children January 2018-March 2020
OT Level II Fieldwork Student Supervisor

St. Rita's Professional Development Academy Distance Learning Program August 2018-Present
Nwankem Benevolent Foundation Inc. (with Pennsylvania State University)
Faculty

Coalition of Occupational Therapy Advocates for Diversity (COTAD) July 2020-Present
Mentor; Minority Mentorship Program

Leadership Education in Neurodevelopmental Disabilities & Related Disorders August 2021-June 2022
Long Term Trainee

Certification and Licensure

National Board for Certification in Occupational Therapy, #346879 August 2015-Present

Pennsylvania Occupational Therapy License, #OC0140175 August 2015-Present

Professional Associations

American Occupational Therapy Association, Member #4366068

Pennsylvania Occupational Therapy Association, Member #69043965

Professional Development and Related Certifications/Trainings

Instructor, Course Title, Certification:

Dates:

American Heart Association, BLS for Healthcare Providers, CPR and AED certification

2013-Present

University of Pittsburgh, School of Social Work, Recognizing and Reporting Child Abuse: Mandated and Permissive Reporting in Pennsylvania	2015-Present
Kay Toomey, PhD, When Children Won't Eat: Picky Eaters vs. Problem Feeders - Assessment & Treatment using The SOS Approach to Feeding, certified therapist	January 2016
