Comments:

Entering class size is the number of students newly enrolled for the admission cycle PLUS number of students who are reentering from a different cohort.

Attrition includes students who voluntarily withdraw from the program; are dismissed for academic or professionalism reasons; take a personal or medical leave of absence; or who require additional time to complete the program of study.

Regarding the students who attrited from the Class of 2024 cohort, seven of the eight have rejoined a future cohort and are on track to complete the program within the University of Pittsburgh's statute of limitations for professional programs awarding the Master of Science degree.
